Managed Print Services

A **LaserFast Managed Print Service** is a customised solution that includes Laser Printers, Multi Function Devices, Hardware, Consumables and Service - all under one easy agreement, specifically tailored to deliver reduced costs and give you greater control of the print environment in your organisation.

- ⇒ DO YOU HAVE ANY IDEA HOW MANY PRINT DEVICES THERE ARE IN YOUR ORGANISATION?
- ⇒ WHAT DO THEY COST TO RUN?
- ⇒ HOW MUCH TIME AND MONEY COULD BE SAVED THROUGH BETTER MANAGEMENT OF YOUR PRINT ENVIRONMENT?

A QUICK RUNDOWN OF THE ADVANTAGES OF A LASERFAST MANAGED PRINT SERVICE (MPS)

- Lower printing costs through better utilisation and implementation of devices and consumables
- Lower costs through a reduction in the labour required to manage printers and Multi Function Devices (MFDs).
- Reduced complexity of managing the print environment through a single point of contact, one agreement and only one monthly invoice
- Reduced environmental impact thanks to lower power usage, reduced consumables and paper usage
- Improved document flow, management, storage and retrieval, resulting in improved productivity and user satisfaction

An MPS is always flexible and can be modified as your business needs change.

LASERFAST has been providing good 'old fashioned' service since 1996 across Australia. Thousands of businesses trust us for reliable service, independent expert advice, and for the flexible solutions we tailor for each customer and project. Our clients include **NAB, Fosters and Kennards Hire**.

An MPS solution can include:

- Printer network design - the right device for the right situation
- Supply of print devices matched to the workloads required
- Proactive fleet monitoring, ensuring devices are always stocked with toner and issues are identified before a problem arises
- Printer installation, configuration and training
- Repairs and maintenance
- Scanning and archiving solutions that streamline the flow of documents
- Environmental services, including recycling and disposal of removed equipment, toner recycling programs and print reduction strategies and technology
- Comprehensive, customised reporting of printer usage

Unlike many of our competitors, we're not tied to any particular manufacturer so we're free to recommend solutions appropriate to your needs, preferences and budget. Our independence is your freedom.

WHAT'S IN IT FOR YOU?

- If you're the **Finance Manager** you'll be thrilled to see a reduction in capital expenditure and other costs - not only those related to printing but also the indirect costs associated with wastage, business process efficiency and overall effectiveness.
- Maybe you're the **IT Manager**? If so you'll be pleased with the rationalisation and consolidation of devices and the increased uptime and reliability delivered by our quick and skillful technicians.
- **Team Managers** will appreciate the improvements in printing, copying, scanning and faxing documents.
- **Marketing Managers** will love the ability to print high quality brochures, reports and documents in-house.

But **no matter who you are**, you'll be happy that you can print on-demand with a minimum of fuss - simply because the printers work! You won't be waiting around for a repair man or for toner to be delivered.

Implementing an effective MPS is easy and we consult with you through the entire process to ensure your needs are met and requirements exceeded!
